## INFORMATION FOR YOUR SAFETY

FYS

### Curtains, Blankets and Pads: Protecting Your Work Area

**Welding Curtains:** For use in vertical applications with light to moderate exposure to sparks and heat from chipping, grinding, heat-treating, sand blasting and light horizontal welding. Designed to prevent sparks from escaping the designated work area.

**Welding Blankets:** For use in horizontal applications with light to moderate exposure to sparks, heat and molten slag. Designed to protect machinery and prevent the ignition of combustibles located in the designated work area.

**Welding Pads:** For use in horizontal applications with severe exposure to molten substances or heavy horizontal welding. Designed to prevent the ignition of combustibles located adjacent to the underside of the pad.
