A 3MR11799-00000

3MR11872-00000

A. Virtua™ Sport CCS, Virtua™ CCS with Foam Gasket and Virtua™ CCS Readers with Foam Gasket

- Corded earplug Control System (CCS) is designed to keep eyewear and earplugs attached, untangled and ready to use
- Lightweight, polycarbonate lenses with a contemporary design
- Compatible with many vinyl-corded earplugs (sold separately)
- Earplug cord can be worn around the neck to carry eyewear when neither product is in use
- Removable, foam-lined gasket helps limit eye exposure to nuisance dust while providing added comfort and cushioning
- Small vents in the gasket help minimize fogging
- Meets ANSI Z87.1-2015 and CSA Z94.3-2007

INFORMATION FOR YOUR SAFETY

FYS

The National Institute for Occupational Safety and Health (NIOSH) reports that every day about 2,000 U.S. workers sustain job-related eye injuries that require medical treatment. However, safety experts and eye doctors believe the correct eye protection can lessen the severity or even prevent 90 percent of these eye injuries.

The Occupational Safety and Health Administration (OSHA) requires workers to use eye and face protection whenever there is a reasonable probability of injury that could be prevented by such equipment. Personal protective eyewear, such as goggles, face shields, safety glasses or full face respirators must be used when an eye hazard exists. The necessary eye protection depends upon the type of hazard, the circumstances of exposure, other protective equipment used and individual vision needs.

Safety eyewear must have ANSI Z87.1-2015 (which means it is impact resistant) marked on the frame or lens.

A. Lens Cleaning Towelettes

- Disposable dispenser holds 100 each 5" x 8" individually packaged pre-moistened lens cleaning towelettes in a sturdy, corrugated cardboard dispenser with pull-out bottom for easy dispensing
- Portable, pop-up towelette canister contains 100 each 5" x 8" pre-moistened lens cleaning towelettes - great for trucks and toolboxes
- Larger-sized lens cleaning towelettes available in boxes containing 30 each 8" x 11" individually packaged wipes
- Anti-static
- Contains alcohol

Part Number	Description	Packaged
RAD64051461	Dispenser	100/dispenser
RAD64051462	Towelette Canister	100/canister
RAD64051460	Towelettes, 8" x 11"	30/bx

B. Disposable Lens Cleaning Stations

- 5" x 8", low-lint, non-abrasive tissues
- Table top or wall-mountable
- Maintenance free
- Alcohol-free

Part Number	Description	Packaged
RAD64051473	8 oz Anti-Fog, Anti-Static Solution	600 Tissues
RAD64051474	16 oz Anti-Fog, Anti-Static Solution	1,200 Tissues

C. Refillable Metal Lens Cleaning Station

- Metal dispenser with enamel finish
- Fits easily into tight spaces and features a front panel with key lock and tissue disposal compartment
- Station comes empty. A filled station includes:
16 oz anti-fog anti-static solution (RAD64051476), with pump (RAD64051477) and 760 - 5" x 6 3/4" tissues (RAD64051470)
- Alcohol-free

Part Number	Description	Size (H x D x W)
RAD64051471	Metal Station (Empty)	9" x 3 1/4" x 17 1/2"

D. Lens Cleaning Tissues

- Low-lint, non-abrasive tissues leave lenses clear and streak free
- Highly absorbent tissue allows for quick and economical cleaning

Part Number	Description	Packaged
RAD64051472	Tissues, 5" x 8"	300/bx
RAD64051470	Tissues, 5" x 6 3/4"	760/pk

E. Liquid Lens Cleaners

- Safe for polycarbonate, plastic and glass lenses with all types of lens coatings
- Anti-static, anti-fog formula
- Ideal for glasses, goggles, faceshields and computer screens
- Alcohol-free

Part Number	Description	Packaged
RAD64051478	Lens Cleaner	1 Gallon
RAD64051476	Lens Cleaner	16 oz Bottle
RAD64051477	Spray Pump for 16 oz Bottle	Each
RAD64051479	Lens Cleaner with Microfiber Cloth	1 oz Pump Bottle
RAD64051475	Lens Cleaner	4 oz Pump Bottle

F. Anti-Fog Treatment

- Ideal for goggles, shields, eyeglasses, sunglasses and dive masks*
- Prevents lens fogging for hours or days, depending on application
- Goes on clear, stays clear
- Buffing cloth included

Part Number	Description	Packaged
RAD64051465	Anti-Fog Towelettes	30/bx
RAD64051467	Anti-Fog Lens Cleaning Solution with Cloth	2.5 oz Pump Bottle

Eyewear Accessories

RADNOR

A. Eyewear Packs and Cases

- Eyewear packs and cases have zippers for easy open and close
- Belt clip attachment included on eyewear pack
- Holds most styles of eyewear, lens replacements and eyewear accessories such as cords and cleaning wipes
- All eyewear and accessories sold separately

Part Number	Description	Size (W x H x D)
RAD64051451	Pack with Clip, Black	6½" x 2½" x 3⅝"
RAD64051452	Case, Black	5⅞" x 1¾" x 2⅞"

B. Eyewear Pouches

- Choose from microfiber or nylon pouches with drawstring closure
- Most eyewear styles fit inside and are protected from scratches and debris
- Microfiber pouch can also be used as a lens cleaning cloth
- Nylon pouch fits most goggles

Part Number	Description	Size (W x L)
RAD64051453	Eyewear Pouch, Microfiber	4" x 8"
RAD64051454	Eyewear Pouch, Nylon	4½" x 9½"

C. Eyewear Cords

- Secure your eyewear from falling and scratching
- Choose from three (3) cord styles
- Attaching ends slide on frame for easy adjustment

Part Number	Description
RAD64051455	Adjustable Nylon Cord, Black
RAD64051456	Sporty Foam Cord, Black
RAD64051457	Adjustable Polyester Cord, Black

D. Sideshields

- Slip-on sideshields are not ANSI approved
- Flex sideshields are molded to a bendable softness for a comfortable fit, block 99.9% of UV rays, and meet ANSI Z87+
- Eyewear not included

Part Number	Description
RAD64051420	Slip-On Sideshields
RAD64051421	Flex Sideshields

E. Safety Glass Dispensers

- Durable, transparent acrylic dispensers hold boxed or loose glasses and goggles
- Vertical and tray styles dispense glasses through flip-up door
- Mounted on wall or free-standing, transparent high visibility makes checking for refill easy

Part Number	Description	Size
RAD64051400	Tray Dispenser	3" x 9" x 6"
RAD64051401	Vertical Dispenser	18" x 8" x 4"

Faceshields and Headgear

- Faceshields fit most leading headgear brands
- Always wear visors with primary eye protection
- Meets ANSI Z87.1-2003

A. Molded Polycarbonate Visors

Part Number	Description	Size

Faceshields and Headgear

The QuickSwitch™ System

The QuickSwitch™ system is all about speed and increases productivity without any compromise to worker safety.

Three mounting options for faceshields and welding helmets ensure compatibility with Fibre-Metal® helmets.

A. Speedy-Loop™

Ideal for frequent on/off use of welding helmets, faceshields and goggles in combination with protective caps.

- Quick switching between tasks – mounts directly on protective cap
- No tools or hardware required – adjusts to fit any cap style
- Does not affect dielectric rating of cap

Part Number	Description
HON5000	Speedy-Loop™

Quick-Lok™ Blades

Adapts most popular brands of slotted caps for use with the Quick-Lok™ mounting system.

- Mounting blades snap securely into slots on cap
- Mounting cups attach securely to welding masks, faceshields and goggles
- Switch accessories in seconds – without tools

Part Number	Description
HON6000	Quick-Lok™ Blades

Quick-Lok™ Adapter Kit

Provides a mounting solution for longer-term combination use or high activity applications.

- Mounting blocks screw onto protective cap
- Mounting cups attach securely to welding masks, faceshields and goggles – without tools
- Switch accessories in seconds – without tools

Part Number	Description
HON4000	Model 4000 Quick-Lok™ Kit

B. High Performance® Headgear

- Made from Noryl®, faceshields are stronger, more durable and more heat resistant than ordinary faceshields
- Choose from a 4" or 7" deep crown protector
- Features the adjustable Speedy-Loop™ Mounting System
- Designed for wide vision with extended-view windows and screens
- Exclusive Channel Grip System mounts windows and screens and locks them in place in a deep, recessed channel to form a perfect seal, keeping dust, dirt and debris out
- Model 3-C replacement headgear secures for a comfortable fit
- Windows sold separately
- Meets ANSI Z87.1 and CSA Z94.3

Part Number	Description
HONF400	F-400 Faceshield with 4" Crown Ratchet Headband
HONF500	F-500 Faceshield with 7" Crown Ratchet Headband
HONF5400	F-400 Faceshield with 4" Crown and Speedy-Loop™ Mounting System
HONF5500	F-500 Faceshield with 7" Crown and Speedy-Loop™ Mounting System
HON3C	Replacement Headgear for Welding Helmets

C. High Performance® Faceshield and Hard Hat Adapter

- Fully dielectric mounting bracket provides a positive seal between protective cap or full brim hat and faceshield to protect from debris
- Faceshield may be pivoted above the cap or hat without removing it between uses
- Windows sold separately

Part Number	Description
HONFM70	Peak Mounted Faceshield for Cap
HONFM71	Peak Mounted Faceshield for E-1 Hat

A. Dual Crown High Performance® Headgear Assembly

- Broader, deeper 4" crown and chin protectors provide extra protection
- FM-70 cap peak-mounted bracket
- F-400 with Model 3-C Headgear and F-5400 with Speedy-Loop™ mounting system
- Each features an injection molded, pre-formed, extended wraparound 0.060" thick clear propionate High Performance® window which is lightweight, dimensionally stable, distortion-free, impact and scratch resistant
- Meets ANSI Z87.1 and CSA Z94.3

Part Number	Description
HONFM400DCCL	F-400 Faceshield Complete with 6750CL Clear Window and Chin Guard Complete with 5000 Speedy-Loop™ to attach to Protective Caps
HONFM5400DCCL	F-5400 Faceshield Complete with Window and Chin Guard
HONFM400DCCLC	F-400 Dual Crown Faceshield with 6750CL Clear Window and Clear Chin Guard Complete with Model 3-C Headgear
HONFM70DCCL	FM-70 Faceshield System with Window, Noryl® Chin Guard and Dielectric Brackets with 4" Crown Headgear

B. High Performance® Faceshield Windows

- Faceshield windows are injection molded from superior-strength propionate
- Pre-formed to the exact curve of crown protectors for an exact fit and a perfect seal against dust, dirt and debris
- Windows for virtually every jobsite hazard are 0.060"
- All visors except steel mesh screens meet ANSI Z87.1. Clear windows also meet all CSA Z94.3

Part Number	Description	Size	Color
Wide Vision – Fits F-400, F-500, FM-70 and FM-71 Series

HONS199	#24 Steel Mesh Screen	9¾" x 19"	

A HONFM400DCCLC

B HON4178DGN

C. Uvex Bionic® Shield

- Tough for rugged jobs, yet lightweight for all-day comfort
- Stands up to airborne debris, splashes and welding IR
- Infinite adjustability and easy-to-replace visor
- Comfortable cell foam on back of headgear
- Breathable, removable, washable headband
- Faceshields offer secondary protection and must be worn with safety glasses or goggles
- Meets ANSI Z87+ and CSA Z94.3

Part Number	Description
HONS8500	Clear Polycarbonate Faceshield
HONS8510	Clear Polycarbonate Faceshield with Hardcoat/Anti-Fog Coating
HONS8550	Clear Polycarbonate Replacement Visor

A. V-Gard® Cap and Hat Frames and Debris Control

- Sloped V-Gard® frame has gutters that guide debris off frame, away from line of sight
- V-Gard® cap frames accommodate other PPE, such as MSA V-Gard® visors, chin protectors, cap and hat-mounted hearing protection and most half-mask respirators
- Replaceable debris control creates a tight seal between helmet and the frame, preventing material from falling in the face when lifting visor
- Non-metal construction

Part Number	Description
MSA10158799	Metal Frame for MSA Caps
MSA10158800	Metal Frame for MSA Skullgard® Caps
MSA10158821	Metal Frame for MSA Full-Brim Hats
MSA10115730	Non-Metal Frame for Slotted MSA Caps with Debris Control
MSA10116627	Non-Metal Universal Hat Frame without Debris Control
MSA10115821	ET Frame for Slotted MSA Caps; for Use in Elevated Temperatures with Debris Control
MSA10187161	Accessory frame for Caps, universal, with debris control
MSA10187162	Accessory frame for caps, universal
MSA10187163	Replacement debris wiper
MSA10187251	Replacement rubber strap

B. V-Gard® Visors and Chin Protectors

- V-Gard® Visors are designed for use ONLY with V-Gard® frames and chin protectors
- All visors meet ANSI/ISEA Z87.1-2010
- Unique moveable plates allow greater flexibility of head movement

Part Number	Description	Size
MSA10116557	Mesh Visor, Plastic Edge	8" x 17"
MSA10116558	Mesh Nitrometer Visor, Plastic Edge	8" x 17"
MSA10115836	Visor, PC, Clear, Contoured	8" x 17" x 0.040"
MSA10115837	Nitrometer Visor, PC, Clear, Contoured	8" x 17" x 0.040"
MSA10115840	Visor, PC, Clear, Contoured	8" x 17" x 0.060"
MSA10115863	Visor, PC, Clear, Contoured	9½" x 17" x 0.040"
MSA10115855	Visor, Propionate, Clear	8" x 17" x 0.098"
MSA10115850	Visor, PC, Reflective-Coated Green Tint, 5/bx	9½" x 17¾" x 0.07"
MSA10115828	Retractable Chin Protector	
MSA10115827	Standard Chin Protector, Opaque	
MSA10149029	Standard Chin Protector, Clear	

C. V-Gard® Headgear

- Designed to work with V-Gard® visors and chin protectors
- Works with all V-Gard® visors, except V-Gard® Arc Flash visors for safety reasons
- Seven-point headband adjustment, ratchet closure
- Sweat-wicking comfort pads for brow and nape
- Infini-just left/closure offers grippable knobs that don't come off
- ANSI/ISEA Z87.1-2010 compliant when worn with V-Gard® visors

Part Number	Description
MSA10127061	General Purpose Headgear
MSA10127062	Elevated Temperature Headgear, up to 350°F

A

MSA10115730

B

MSA10116558

MSA10149029

C

MSA10187161

D

MSA10154622

D. V-Gard® Frames for MSA Slotted Full Brim Hats

- Compliant with MSA full brim slotted hats ONLY
- Sliding adjustment blades allow visor to work with most half-mask respirators and other PPE worn under a visor
- Lift/closure adjustment with grippable knobs that don't come off
- Use for chipping, splash, chiseling, drilling, grinding, machining, power fastening, sanding and sawing
- Meets ANSI/ISEA Z87.1-2010 and CSA Z94.3

Part Number	Description
MSA10154622	Frame for Slotted MSA Full Brim Hats with Debris Control
MSA10154604	Frame for Slotted MSA Full Brim Hats without Debris Control
MSA10155838	Frame for Slotted MSA Full Brim Hats with Debris Control. Debris Control Exceeds EN Requirements for Molten Metal

Use V-Gard® frames ONLY with MSA helmets and V-Gard® visors to ensure compliance with safety standards. Misuse can result in death, permanent impairment of sight, or other serious injury.

Radnor® Lite Series Welding Helmets with Auto-Darkening Filters deliver the performance and durability that expert welders demand!

- ✓ Advanced Digital Technology
- ✓ Top-Rated Optical Clarity
- ✓ Extensive Range of Individual Adjustment

A. Radnor® Lite Series Welding Helmets with Auto-Darkening Filters

- Lite Series helmets utilize the latest in digital technology with simplified controls
- ASIC (Application Specific Integrated Circuit) technology
 - Minimizes electromagnetic noise interference
 - Increases arc detection capabilities
 - Fewer components providing enhanced reliability
- High quality heat-resistant shell
- Highest rating for superior optical quality
- Three models of auto-darkening filters to choose from: RD48, RDX60 and RDX81
- X-TIG Mode (RDX60 and RDX81) provides heightened sensitivity for sunlight interference, low amperage and out-of-position welding
- Easy to operate internal controls
- Large LED display is easy to read
- Quick access to cover plates for simplified trouble-free change out

RADNOR®

A. Radnor® Starter Welder's Kit

The Radnor® Starter Welder's Kit is designed to provide you with the tools you need for training in the welding profession. The kit contains 23 essential industrial-grade items required by tech schools and used daily by welders.

Part Number	Description
RAD64006900	Starter Welder's Kit

Kit Contents

Part Number	Description	Quantity
RAD64000434	Curved Handle, Carbon Steel Wire Brush 3" x 19"	1
RAD64000614	Half Round File 14", Bastard Cut	1
RAD64002008	Chipping Hammer, Cone and Chisel, Spring Handle	1
RAD64002304	Flat Soapstone Holder with Soapstone, 3/16" x 1/2" x 5"	1
RAD64002351	WelderHelper™, 8-Way MIG Pliers	1 Pair
RAD64002356	Weld Fillet Gage, Stainless Steel Blades 1/8"-1"	1
RAD64002382	Tip Cleaners Standard, Drill Size 77-49	1
RAD64003400	Tank Wrench 10-Way, 3/16"-11/8" with 3/8" Socket	1
RAD64003411	Spark Lighter, Single Flint	1
RAD64005086	Gas Welding and Cutting Goggles 2" x 4 1/4", with Shade 5 Filter Plate	1 Pair
RAD64005205	Helmet RD48 Auto-Darkening with Filter, Black, Variable Shade 9-13	1
RAD64005115	Front Cover Plate 4 1/2" x 5 1/4" x 0.040", Polycarbonate	2
RAD64005114	Inner Cover Plate 90mm x 110 mm x 0.040"	1
RAD64051065	Ratchet Headgear with Adjustable Knob	1
RAD64051710	Molded Polycarbonate Visor, Clear 8" x 15 1/2" x 0.060"	1
RAD64051601	Safety Glasses with Adjustable Ratchet and Telescoping Temple	1 Pair
RAD64051821	Ear Plugs Corded, Disposable Foam	10 pr/bx
RAD64057632	Welder's Gloves Select Cowhide, with Reinforced Thumb, Large Size	1 Pair
RAD64059530	Disposable Respirator with Valve, Flame Resistant, N95, 10/Box	1
EMP6527POP	Measuring Tape 25' x 1", with Fractional Markings	1
OCCTN8-06-ONE	Welder's Cap, Black, 100% Cotton with 360° Sweatband	1
S2984-026	Slip Joint Pliers, Heavy-Duty 8", Chrome Plated	1 Pair
S2987-471	Adjustable Wrench 10", Chrome Plated	1

B. Lite 42 Variable Shade Auto-Darkening Helmet and Accessories

- Ideal for welding students or the occasional welder
- 90 x 110 mm format with 6.0 sq inch viewing area
- Variable shade 9-13 with light state shade 4
- Sensitivity and delay mode adjustments
- Not recommended for TIG welding below 20 amps

B RAD64005199

Part Number	Description
① RAD64005199	Lite 42 Auto-Darkening Welding Helmet - Black
① RAD64005180	Lite 42 Variable Shade Auto-Darkening Filter
① RAD64005114	90 mm x 110 mm x 0.040" Front Cover Plate
① RAD64005116	2" x 4 1/4" x 0.040" Inside Cover Plate
RAD64005117	Perma-Lock Ratchet Headgear
RAD64005120	Fleece Sweatband
RAD64005139	Welding Helmet Shell Only - Black

WARNING ①: This product can expose you to chemicals including Bisphenol A (BPA), which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

C. Lite 60 Variable Shade Auto Darkening Helmet

- Ideal for welding students or the occasional welder
- 5" x 4" viewing area
- Variable shade 7-13
- 4 Sensors, internal controls, grind mode, and TIG rating of 15
- Sensitivity and delay mode adjustments

C RAD64005197

INFORMATION FOR YOUR SAFETY

FYS

A welding screen will reduce the amount of dangerous UV light that other workers are exposed to when welding is performed. Even if a person is not directly looking at the UV light produced by a welding torch, a quick glimpse out of the corner of your eye could cause a severe and harmful flash burn. Welding screens provide excellent protection and are required by OSHA Standard 1910.252.

RADNOR

A. Welding/Cutting Goggles

- For use with oxy-fuel or propylene gas welding and cutting
- Contoured shape fits snug to keep out dirt and light
- Hooded vents provide effective cooling and evaporation to minimize fogging
- Adjustable elastic band keeps goggles firmly in place
- Shade 5 filter plate included
- Meets ANSI Z87.1

INFORMATION FOR YOUR SAFETY

FYS

Industrial Head Protection

ANSI/ISEA Z89.1-2014

The updated ANSI/ISEA Z89.1-2014 standard is a voluntary industry standard that establishes the types and classes of industrial helmets and provides performance and testing requirements for them. This standard includes specifications for helmets designed to offer protection from top and/or lateral impact.

Three classes included in this standard indicate the helmet's electrical insulation rating.

Electrical Performance

1. **CLASS E (Electrical)** Helmets intended to reduce the danger of exposure to high-voltage electrical conductors, proof-tested at 20,000 volts.
2. **CLASS G (General)** Helmets intended to reduce the danger of exposure to low-voltage electrical conductors, proof-tested at 2,200 volts.
3. **CLASS C (Conductive)** Helmets not intended to provide protection from electrical conductors.

The test requirements for Industrial Head Protection per ANSI/ISEA Z89.1-2014 are separated by helmet type: Type I helmets protect the wearer from top impact, while Type II helmets protect the wearer from top and lateral impact. The test requirements for ANSI/ISEA Z89.1-2014 are available from the Industrial Safety Equipment Association (safetyequipment.org).

Non-Mandatory ANSI/ISEA Z89.1-2014 Tests

Reverse Donning

In order for a helmet to be worn in reverse or a swing ratchet suspension to be used in a helmet, that particular helmet must be marked for reverse donning which indicates that it meets the non-mandatory reverse donning test. In order to do this, the helmets suspension must be reversed so that the nape strap is in the rear (back of wearer's head).

Lower Temperature (LT)

The traditional low temperature test for a helmet is -18°C or 0°F. Helmets that meet the ANSI/ISEA Z89.1 requirements for LOWER temperatures (-30°C or -22°F) can be marked with LT by the manufacturer.

High Visibility (HV)

Helmets that meet the non-mandatory requirements for high visibility, including special tests for Chromaticity and Luminescence for added visibility, can be marked with HV by the manufacturer.

Logo Express® Service for MSA Helmets

Custom Imprinting and Striping from MSA Logo Express® Service

MSA offers 14 different helmets (in up to 20 colors), 4 suspensions, 27+ striping options, and multiple logo/slogans locations for endless customized helmet possibilities! MSA has been logoing hard hats for 30+ years—longer than anyone else in the business!

Minimum Order Quantities (MOQ)

MSA requires MOQ's by helmet type, for logoing and striping. Qualifying MOQ's of custom-imprinted or striped helmets must be of the same size, model and options (i.e., color and suspension). MOQ's are:

- 20 for V-Gard®, SmoothDome®, Topgard® and Comfo Cap® Helmets
- 16 for Skullgard® or Thermalgard® Helmets
- 12 for Super-V® and Vanguard Helmets
- 40 for Bump Caps

MSA10148708	Replacement 4-Point Fas-Trac® III Suspension	
MSA10153382	Replacement 6-Point Fas-Trac® III Suspension	

MSA10153382

*Meets the voluntary standard for hi-visibility as prescribed by ANSI/ISEA Z89.1-2009. Look for the official hi-visibility marking (HV) on the helmet's ANSI label.

Standard-size V-Gard® Caps and Hats are USA-certified when assembled with MSA's Fas-Trac® III or 1-Touch® Suspension ONLY.

The Safety Company

A. Skullgard® Protective Caps and Hats

- Meets ANSI/ISEA Z89.1-2014 requirements for a Type I (top impact), Class G helmet, as well as voluntary requirements for low temperature (LT) and reverse donning
- Withstands radiant heat loads up to, but not exceeding 350°F

Part Number	Description	Color
MSA454617	Cap with Staz-On® Suspension	Natural Tan
MSA454618	Cap with Staz-On® Suspension	White

B. Radnor® Bump Cap

- Plastic cap provides scalp covering to reduce exposure to abrasions and lacerations due to minor bumps
- Durable, molded from high-density polyethylene
- Perforated sides allow for cross ventilation for better air circulation
- Adjustable sizing from 6½ to 8
- Comfortable, lightweight and cool
- Smooth surface, easy to clean and no replacement parts
- **Warning:** Bump caps are not safety helmets and DO NOT meet OSHA or ANSI/ISEA requirements for head protection
